

"A free plan for this beautiful 62"span oldtimer the "Roamer" appeared in the July '09 issue of RCM&E. If like me you are interested in building the aeroplane, I have a scanned copy of the plan, scanned RCM&E article, the original 1952 article with plan and details for a wonderful laser cut short kit from SPARC Laser in Victoria. Call John on 0427707118 and I'll email you all the scanned bits free of charge"
